

## QUALITY AND ENVIRONMENTAL MANAGEMENT POLICY

*MECANIZADOS ARGUSA, S.A. through the implementation of a quality and environmental management system, ratifies its commitment to fully satisfy the quality expectations of its customers, and to carry out a management based on continuous improvement and environmental protection, this being understood as the prevention of pollution and other commitments such as the sustainable use of natural resources.*

*To achieve all this, we work on aspects such as aesthetic design, reliability, adaptation to customer needs in terms of installation and delivery times, etc., which from the broad point of view of quality, must be treated appropriately and be the subject of attention, in order to achieve optimum overall performance.*

*Environmental protection is another priority aspect for MECANIZADOS ARGUSA, S.A. This implies, among other activities, the identification of the environmental impacts that the activity of the organization, or of third parties on its behalf, may have on the environment, in order to influence the most significant ones; optimize the use of resources; the adequate management of the waste generated, and compliance with environmental legislation.*

*Compliance with all types of legislation applicable to the organization is part of the guidelines of the Management. Therefore, MECANIZADOS ARGUSA, S.A. determines the legal requirements applicable to both the organization and the products marketed, as well as other requirements subscribed with customers or other entities, and ensures compliance with them.*

*To achieve these commitments, management is promoting the implementation of an integrated quality and environmental management system, in accordance with the UNE-EN-ISO 9001:2015 and UNE-EN-ISO 14001:2015 standards for the design, manufacture, marketing, installation and technical assistance of pedestrian access control equipment in Illescas; and in accordance with the UNE-EN-ISO 9001:2015 standard, for the marketing, installation and technical assistance of pedestrian access control equipment in the Barcelona sales office.*

*In order to achieve continuous improvement of the integrated management system and the company's environmental performance, objectives and goals are established at all levels of the organization. These are consistent with the Quality and Environmental Management Policy, which serves as a reference framework for their establishment and review.*

*The Management is committed to provide the material and human resources necessary to carry out the Quality and Environmental Management Policy; to ensure its application, and its periodic review to ensure its consistency with the nature of the activity carried out by MECANIZADOS ARGUSA, S.A. The Quality and Environmental Management Policy is disseminated and its understanding is ensured at all levels of the organization, and is also available to interested external parties on the website <http://www.argusa.com>*

Illescas, April 29th, 2024
